

FREE EMPLOYMENT HEALTH CHECK

MACHINS
SOLICITORS LLP

For all your
legal needs

In the month of January 2018, Machins Employment Team are offering your business a free health check of your employment contracts and staff policies.

2018 will bring changes to Data Protection under the GDPR (the *General Data Protection Regulation*) in addition to other recent changes in employment law and practice. It's the ideal time to check that your business is compliant.

Having up to date employment contracts and policies protects your business and saves you time and resource. We can help you achieve this.

Our offer includes an initial review of your employment documentation, written recommendations highlighting what might be improved and/or what you might need to put in place.

If there are changes to be made one of our solicitors will advise you on your options.

If you are interested in registering for this **free service**, or require any other information at all, please contact our employment team on **01582 514380** or **jackie.cuneen@machins.co.uk** or **toni.hudson@machins.co.uk**

Availability is limited, so please ensure that contact is made as soon as possible to avoid disappointment.
The deadline for registration is 31st January 2018
